Part III DETAILED ACTION

Notice to Applicant(s)

1. This application has been examined. Claims 1-32 are pending.

Information Disclosure Statement

2. The references listed in the Information Disclosure Statements dated 1/2/01; 4/29/02, and 5/3/04 have been considered by the Examiner and are attached to this Office Action.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

4. Claims 1, 29, and 30 are rejected under 35 U.S.C. 102(e) as being anticipated by Bodin et al (Bodin) (U.S. 6,061,733).

Art Unit: 2626

With respect to claims 1, 29, and 30, Bodin discloses a method of compiling a resultant image by providing a plurality of image data files (the abstract); providing a memory for each image data file (column 4, lines 56-65); identifying at least one segment (portion) from each of the image data files (the abstract); buffering the image data corresponding to each segment (column 3, lines 40-60), and copying the pertinent segment into a resultant image buffer (a single usable file) (column 3, lines 40-55).

Allowable Subject Matter

5. Claims 2 and 3 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

6. Claims 4-28, 31, and 32 are allowed.
